## **CONTENTS IN DETAIL**

ACKN	NOWLEDGMENTS	xiii
INTR	ODUCTION	xv
1		
HOW	A NETWORK WILL IMPROVE YOUR LIFE	1
What's	a Network?	2
	rnet	
	etworks and What You Can Do with Them	
	File Sharing	5
	Sharing an Internet Connection	
	Instant Messages	7
	Sharing Printers and Other Hardware	
	Home Entertainment	
	Video Cameras and Home Security Devices	
2		
TYPE:	S OF NETWORK CONNECTIONS	9
Packets	and Headers	11
. acitoio	Error Checking	
	Handshaking and Overhead	
Ethernet	t	
Wi-Fi		16
	ne Networks	
	Alternative Wiring Methods	
	d DCE Equipment	
Point-to-	Point Networks	
	Ad Hoc Wi-Fi	
	Infrared	
_	FireWire (IEEE 1394)	
	tions Through a Telephone Line	
	and Servers	
3		
HUBS	S, SWITCHES, AND ROUTERS	27
Hubs ar	nd Switches	28
	Hubs	
	Switches	

Network Know-How (C) John Ross 2009

LANs and WANs	31
Bridges and Routers	32
Combination Boxes	33
4	
HOW COMPUTER NETWORKS ARE ORGANIZED	35
TCP/IP Networks	36
Names and Addresses	
Network Tools	
IPConfig	41
ifconfig	
ping	
TraceRoute	44
5 Designing Your Network	47
Identifying Current and Future Nodes	
The Control Center	
Home Run Wiring	
Trunks and Branches: Using Secondary Switches	
What About Wi-Fi?	
What About Wi-Fi?	
What About Wi-Fi?6 INSTALLING THE NETWORK CONTROL CENTER ETHERNET CABLES	AND 55

14 PRINTERS AND OTHER DEVICES ON YOUR NETWORK	191
How to Connect a Printer to Your Network	192
External Printer Servers	192
Wi-Fi Printer Servers	194
Built-In Printer Servers	194
Automatic Printer Switches	194
Using a Computer as a Printer Server	195
CUPS: The Common Unix Printing System	199
All-in-One Devices	199
15 OTHER THINGS YOU CAN CONNECT TO YOUR NETWORK: AUDIO, VIDEO, HOME ENTERTAINMENT, AND BEYOND	203
Using a Microphone and Camera with Your Network	204
Internal and External Controllers	204
Networked Cameras and Microphones	
Home Entertainment Networks	
Music Through a Home Network	
Audio Servers	
Audio Clients	
Video Through a Home Network	
Video Servers	
TiVo and Other Digital Video Recorders	
Playing Video on a Computer	
Connecting a TV to Your Network	
Game Consoles	
Connecting a PlayStation	
Connecting a Wii	
Connecting an Xbox 360	
Connecting Home Appliances to Your Network	
Home Automation	
Remote Sensors and Controls	
Bar Code Readers and Remote Data Entry	
If You Can Convert It to Digits, You Can Put It on the Network	
16 OTHER NETWORK APPLICATIONS	225
Remote Desktop	
Windows Remote Desktop	226
Virtual Network Computing (VNC)	229
MaxiVista: Adding a Screen	229
Multiple Monitors	
Remote Control	
Synchronizing Files	

Instant Messaging and Live Communication	233
Servers vs. Peer-to-Peer Messaging	234
Internet-Based IM Services	
Messaging Through a LAN	235
Messaging Through a Virtual Private Network	
Audio and Video Messaging	
17	
TROUBLESHOOTING	239
General Troubleshooting Techniques	240
Define the Problem	
Look for Simple Solutions First	241
Isolate the Problem	243
Retrace Your Steps	243
Keep Notes	244
Viruses and Other Nasties	245
Other Common Problems	245
Configuration Settings	
DHCP Settings: DNS and Default Gateway	246
Failed Connection to a Specific Site	246
An Alternate Connection to the Internet	247
The Collective Wisdom of the Internet	247
Software for Troubleshooting	248
Network Magic	248
Protocol Analyzers	248
ISP Problems	251
Don't Panic	251
